

This is the time you were waiting for
 And finally it has come
 A long break from school,
 To enjoy the summer fun.
 Holidays are Jolly days
 To simply laze around
 To learn something new each day
 And become smarter every way.

Dear Parents

The most awaited vacations of the year are around the corner. It is a wonderful time to relax, enjoy ice-creams and spend quality time with your kids. At the same time, it is a time to increase their knowledge. Hence, the homework assignments and activities are designed to help the students explore their own creativity. Apart from academics, here are some suggestions to make the vacation a memorable one.

- Play with them, tell them stories and talk to them about their problems, aspirations etc. Help them set and achieve goals for self-improvement and motivate them by your own active participation (for example managing anger, meditating for calmness, cycling and yoga for fitness)
- Motivate them to pursue a hobby. Focus and develop an effective diet routine for your child and always remind him/her to stay hydrated by drinking a lot of water and fluids.

Happy Holidays!

Dear Students

Some more suggestions that we feel will make your Vacation more enjoyable:

1. Try to take up a summer activity like swimming, dancing etc. Spend some time doing yoga, exercise, meditation etc. for mental health and physical fitness.
2. Read the english newspaper daily.
3. Under Parental supervision, students can make use of apps like Word Search, four pics One Word, Word Cookies etc. to enhance their vocabulary
4. Try to converse in English with your parents, siblings, friends and relatives, as it will improve your proficiency in this international language.
5. Improve your handwriting by practicing daily.
6. Ensure a time limit (maximum 1 hours) for watching TV or playing computer games.

GENERAL INSTRUCTIONS

1. Holidays homework must be done on colourful A4 size sheets, prepare a subject wise bunch and compile the complete homework in a transparent folder and submit it to your class teacher on July 8, 2019. The work should be done in a very neat and presentable manner.
2. Questions must be done in the given sequence.
3. Mention date and day before starting day's work

We hope these suggestions will help our students to spend their vacation in an interesting manner.

"May you be in the best of health & spirit when you come back in July."
